OMMS NG Training

- **What training currently exists????**
 - SSC Chesapeake installation training
 - Schoolhouse Legacy Functional training
 - ATG Legacy training
- **What training will there be????**
 - NAVSEA currently revising 3M Manual
 - ATG's will be provided with SSC-CH installation training in order to develop train-the-trainer training
 - NAVSEA provide an OMMS-NG NTP which is required for:
 - ILS Survey
 - OPEVAL
 - PMW 151 has used NAWC-TSD to create robust embedded help wizards

SSC-Chesapeake Training

- **Force Level**
 - FAS will receive 1 week of OMMS-NG FAS training
 - 3M Chief Assistant will receive 2 1/2 days of OMMS-NG training
- **Unit Level**
 - 3M Coordinator will receive 1 week of OMMS-NG training
- **All Ships**
 - 1/2 Day Basic User OMMS-NG training
 - 1/2 Day Work Center Supervisor and Department Head training
- **All Ships will receive 1 week of Over the Shoulder Training after system brought online**
- **SSC-Chesapeake will provide current implementation curriculum to ATG's**
 - ATG's in turn create Train-the-Trainer curriculum

NAWC TSD HELP WIZARD

- **Using NAWC TSD to develop robust on-line help functions**
 - **Embedded help training Wizard**

Configuration Item Wizard

Configuration Item Wizard

Welcome

Welcome to the OMMS-NG Configuration Item wizard!

This wizard is designed to take you step-by-step in the creation of a new Configuration Item. All information that is entered via this wizard will be retained and entered on the Configuration Item window upon completion. Also, you have the option of stopping anywhere in the wizard and returning to that point as long as you are still entering the new Configuration Item.

Record Identification Instructions

Configuration Item Wizard

Record Identification Numbers (RINs)

Each Configuration Item can have up to three RINs: Ships RIN, CDM RIN, and ISEA RIN. Each of these RINs are assigned by the appropriate level. When entering a new Configuration Item, the Ships RIN is assigned at the time of entry. This Configuration Item has been assigned a Ships RIN of 117182.

Work Candidate Wizard Welcome

Work Candidate Wizard

Information

As you already know, OMMSNG requires that every Work Candidate be tied to a Configuration Item. Upon saving/applying at the completion of entry of the Work Candidate, the Job Control Number (JCN) will be displayed in the title of the window.

New in OMMSNG is the Work Candidate Identifier, also known as the WCID. The WCID is made up of the generating UIC, the generating system, the generating date, and generating sequence number. This uniquely identifies the Work Candidate.
